Learn Online with Business of Food

The Business of Food is an online platform that allows educators to enhance their knowledge and understanding of agriculture and food at their own pace, from any location. The course offers 25 learning modules on 12 agri-food topics. An "essentials" and "comprehensive" level is provided for each topic, along with one module on careers in the agri-food sector. This comprehensive online platform is designed to equip educators to deliver factual, relevant and balanced information from across the agri-food sector into Ontario classrooms.
